

Construction Waste Collection

Veolia Environmental Services

Construction waste collection and recovery experts.

Veolia provides a genuinely complete waste removal and recycling solution for the construction industry. With over 30 years experience in bin scheduling, Veolia can tailor a flexible waste management solution to meet your site's requirements.

Determining your needs

Veolia examines your waste streams to develop the most appropriate waste and recycling system for your business.

- Step 1: No obligation site visit by one of our team members
- Step 2: Review of current waste management practices - waste types, quantities, pick-up frequencies
- Step 3: Veolia prepares a summary report and recommendations
- Step 4: Customer reviews findings in consultation with Veolia team member
- Step 5: Veolia puts in place necessary equipment and schedules pick-ups
- Step 6: Certificate of Recycling or Disposal provided on request

Veolia - The Collection and Recycling Experts

- > Large range of bin sizes - 1m³ to 30m³
- > 30 years experience in bin scheduling
- > Dedicated call centres (24hr assistance)
- > Flexible pick-up times
- > Quality certified to ISO 9001
- > Safety certified to AS 4801

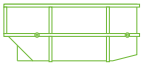

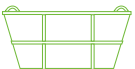

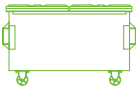

Servicing a range of clients from big to small:

- > Home renovators
- > Builders
- > Residential developers
- > Commercial property developers
- > Large scale infrastructure projects

Bin Selection

Veolia provides a wide range of bins to suit the requirements of individual building sites, large scale developments and industrial operations. These include:

Bin Type	Size	Features
Skip bins 	2-4 cubic metres	For tight access locations Heavy non-compactable waste Small volumes
Marrell bins 	2-15 cubic metres	Especially used for sites requiring waste to be transported to the bins via chutes and in limited space situations. Especially useful when providing multiple bins for individual waste materials.
Bulk bins 	5-30 cubic metres	For larger volumes of waste where space and access is available.
Craneable bins 	2-9 cubic metres	For use when waste is generated in elevated situations or when access is restricted. Bin weights and measures are fully certified.
Craneable / Tippler bins 	0.8-2 cubic metres	Smaller speciality bins for use to transport waste onsite to feed larger bins. These can be moved via crane, forklift and manitou.
Frontlift 	1.5-4.5 cubic metres	For non-construction waste such as office, food, and non-recyclable plastics.

Special Features

These include:

- > Weekend and public holiday collection services which are available on arrangement
- > On-call or scheduled pickups
- > Certificates of recovery and disposal available
- > Bin labeling for onsite recycling

Dedicated Recycling Facilities

Veolia operates construction waste recycling facilities around Australia, diverting materials from landfill for reuse. These materials include:

- > Bricks, tiles, concrete, timber, plasterboard & metals
- > Up to 85% of waste received can be recovered
- > Materials recovered used as road base, garden and pathway material
